

protel for iPad

The app for mobile hotel management

Your alternative working station – goes with you wherever you go

Don't let work tie you to your desk! „protel for iPad“ is the first hotel management system that can be used entirely on a mobile device. The native app for the Apple iPad provides all classic front desk functions at your fingertips. Hotels can even use iPads as “floating workstations” to cut demand peaks at the front desk.

protel for iPad is the first fully mobile hotel management system and the perfect solution for hotels aiming to exceed their guests' expectations in customer service.

Touch me!

No keyboard, no mouse - protel for iPad brings hotel management to your fingertips

The clearly structured layout makes working with protel on the iPad not only a fun experience, but also offers excellent usability even for the inexperienced user.

Front office to go

- ▼ Room plan: Create reservations, edit room and guest information
- ▼ Room type plan: Book more than one room at the same time, check occupancy
- ▼ Retrieve rates and availability
- ▼ Let guests sign registration forms directly on the iPad
- ▼ Quick Check-in per QR-Code
- ▼ Information for guests and reservations with that personal touch
- ▼ Search for, create and edit guest profiles
- ▼ Active lists: arrival, in-house, housekeeping, etc.
- ▼ Reporting: Manager reports, controlling, and much more ...

protel for iPad is a native app for the Apple iPad. The app can be used as an optional add-on to the protel SPE or MPE hotel management systems.
